# Report of the directors

The directors submit their report together with the audited financial statement for the year ended 31 December 2019 to the members of the Transmission Company of Nigeria Plc. ("the Company"). This report discloses the financial performance and situation of the Company.

#### 1. Principal activities

The Company is principally engaged in the transmission of electric power. The Company was issued two transmission licenses, one on 1 July 2006 and the other on 10 June 2013. Its licensed activities include electricity transmission and system operations.

#### 2. Operating Environment

The Covid 19 outbreak in 2020 triggered health and unprecedented economic shocks globally. The pandemic significantly impacted operations and finances of TCN particularly due to strict lockdown restrictions which disrupted demand and supply chains as well as ongoing power projects across the country. Reduced economic activities and collection losses from defaulting customers affected the Discos and International customers thereby impacting TCN finances adversely. Notwithstanding, TCN Management took an innovative approach to maintaining and expanding the Transmission Network through its Nigeria Electricity Grid Maintenance, Expansion and Rehabilitation Program (NEGMERP) aimed at improving the transmission of bulk electricity distribution load centers across the country. TCN also engaged In-house Engineers to install and repair major power equipment internally; improving Internally Generated Revenue to strengthen the company's ability to meet its obligations; human capacity development and general improvement in operational systems and processes, among others.

TCN was able to effectively manage the National Grid to achieve an all-time peak generation of 5,377.8MW on August 1, 2020, and another all-time National Peak of 5,420.30MW on August 19, 2020, which was effectively transmitted to Load Centers, within an interval of less than 3 weeks. Other milestone achievements include the creation of two new work centers in Katsina and Jalingo, upgrading of Gwagwalada work center to a subregion, and completion of some abandoned ongoing projects such as; Gagarawa 2X60MVA, 132/33Kv substation, in Jigawa state; 1X100MVA transformer at Ogba substation, Lagos state; installation and commissioning of 132/33Kv 60MVA Transformer at Rumousi substation, Port Harcourt, Rivers state; installation and commissioning of 1X150MVA transformer at Kano; and an overall increase in transmission wheeling capacity to about 8,100 MW. In the same year, TCN commenced deployment of Automatic Meter Reading (AMR) system to improve efficiency and transparency in market data administration. TCN also made progress in the donor funded projects by the world (WB), Africa Development bank (AFDB) and Agence Framcaise Development (AFD) which are currently at different stages of implementation.

#### 3. Results and dividends

The Company's results for the year ended 31 December 2020 are set out on page 8. The profit for the year has been transferred to retained earnings. The summarized results are presented below:

|  | 31 December<br>2020<br>₩'000 | 31 December<br>2019<br>₩'000 |
|--|------------------------------|------------------------------|
| Revenue  | 156,989,280                  | 112,298,607                  |
| Profit before tax                              | 37,959,893                   | 4,995,024                    |
| Tax credit/ (expense)                          | (19,097,120)                 | (6,760,424)                  |
| Profit/(loss) for the year                     | 18,862,773                   | (1,765,401)                  |
| Other comprehensive gain                       | NIL                          | NIL                          |
| Total comprehensive profit/(loss) for the year | 18,862,773                   | (1,765,401)                  |

The directors did not recommend payment of dividend to the shareholders in 2020 (2019: Nil).

Annual reports and accounts for the year ended 31 December 2020

# Report of the directors (Continued)

#### 4. Directors

The directors who held office during the year and to the date of the approval of this report are set out on page 2.

#### 5. Shareholding

As at 31 December 2020, the shareholders of the Company were as follows:

| Shareholders                     | Number of shares (Unit) | Percentage holding (%) |
|----------------------------------|-------------------------|------------------------|
| Bureau of Public Enterprise      | 8,000,000               | 80%                    |
| Ministry of Finance Incorporated | 2,000,000               | 20%                    |
| Total                            | 10,000,000              | 100%                   |

#### 6. Directors' interest in contracts

None of the directors has notified the Company for the purpose of Section 303 of the Companies and Allied Matters Act (CAMA) 2020 of their direct or indirect interest in contracts or proposed contracts with the Company during the year.

# 7. Directors' shareholding

For the purpose of Sections 301 and 302 of the Companies and Allied Matters Act (CAMA) 2020, none of the Directors had direct and indirect holding in the Company.

# 8. Employment and employees

# (a) Employment of disabled persons

Applications for employment by disabled persons are always fully considered, bearing in mind the respective aptitudes and abilities of the applicants concerned. In the event of members of staff becoming disabled, every effort is made to ensure that their employment with the Company continues, and that appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of disabled persons should, as far as possible, be identical with that of other employees.

#### (b) Employee health, safety and welfare

The Company places a high premium on the health, safety and welfare of its employees in their place of work. To this end, the Company has various forms of insurance policies, including workmen's compensation and group life.

#### (c) Employee training and involvement

The Company places considerable value on the involvement of its employees in major policy matters and has continued its previous practice of keeping them informed on matters affecting them as employees and on the various factors affecting the performance of the Company. This is achieved through meetings with employees and consultations with their representatives.

The Company has in-house training facilities, complemented, when necessary, with additional outsourced facilities for the training of its employees.

# Report of the directors (Continued)

9. Property, plant and equipment

The Company invests in property, plant and equipment which are used during its business. These items have been recorded at cost less any accumulated depreciation and accumulated impairment. The Company's property, plant and equipment have been appropriately disclosed in Note 14.

10. Donations and gifts

No donation was made to charitable institutions and organizations during the year (2019: Nil). In accordance with Section 43 of the Companies and Allied Matters Act (CAMA) 2020, the Company did not make any donation or gift to any political party, political association or for any political purpose during the year (2019: Nil).

#### 11. Auditors

Messrs. Ahmed Zakari & Co (Chartered Accountants) have indicated their willingness to continue in office as auditors in accordance with Section 401(2) of the Companies and Allied Matters Act (CAMA) 2020.

By Order of the Board

Fatima Lawan Muhtar

Company Secretary, Abuja, Nigeria

# Statement of Directors' responsibilities

The directors accept responsibility for the preparation of the financial statements set out on pages 12 to 47 that give a true and fair view in accordance with the International Financial Reporting Standards (IFRS) and in the manner required by the Companies and Allied Matters Act, (CAMA) 2020 and Financial Reporting Council of Nigeria Act, 2011.

The directors further accept responsibility for maintaining adequate accounting records as required by the Companies and Allied Matters Act, (CAMA) 2020 and for such internal control as the directors deemed necessary to enable the preparation of financial statements that are free from material misstatement whether due to fraud or error.

The directors have made an assessment of the Company's ability to continue as a going concern and have no reason to believe the Company will not remain a going concern in the years ahead.

# Statement of Corporate Responsibility for the financial reports

In line with the provision of Section 405 of the Companies and Allied Matters Act (CAMA) 2020, we have reviewed the audited financial statements of the company for the year ended 31 December 2020 and based on our knowledge, we certify as follows:

- a) The audited financial statements do not contain any untrue statement of material fact or omit to state a material fact, which would render the statements misleading, in the light of the circumstances under which such statement was made.
- b) The audited financial statements and all other financial information included in the statements fairly present, in all material respects, the financial condition and results of operation of the company as of and for, the periods covered by the audited financial statements.
- c) The company's internal control has been designed to ensure that material information relating to the company is received and provided to the auditors during the course of their audit.
- d) We have evaluated the effectiveness of the company's internal controls within 90 days prior to the date of this audited financial statements and hereby certify that the company's internal controls are effective as of 31 December 2020.
- e) That we have disclosed to the Auditors and the Audit Committee the following information:
  - The absence of significant deficiencies or material weaknesses in the design or operation of internal controls
    which could adversely affect the company's ability to record, process, summarise and report financial data.
  - That to the best of our knowledge, there were no fraud involving management or other employees who have a significant role in the company's internal control.
- f) There were no significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of the audit, including any corrective actions with regard to significant deficiencies and material weaknesses.

# **Independent auditor's report** *To the members of Transmission Company of Nigeria Plc.*

#### Opinion

We have audited the financial statements of Transmission Company of Nigeria Plc. ("The Company") which comprise the statement of financial position as at 31 December 2020, statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended and the notes to the financial statements including a summary of significant accounting policies and other explanatory notes, as set out on pages 12 to 47.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the company as at 31 December 2020 and of the financial performance and cash flows for the year then ended in accordance with the Companies and Allied Matters Act, (CAMA) 2020 and in compliance with the Financial Reporting Council of Nigeria Act No. 6, 2011 and the International Financial Reporting Standards.

### Basis of opinion

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the Responsibilities of the Auditor for the financial statements section of our report. We are independent of the company in accordance with the International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (Parts A and B) (IESBA Code) and other independence requirements applicable to performing audits of financial statements in Nigeria. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and in accordance with other ethical requirements applicable to performing audits in Nigeria. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters

Key Audit Matters are those matters, which in our professional judgement, were of most significance in our audit of the financial statements for the year ended 31 December 2020. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below as the key audit matters to be communicated in our report.

#### 1. Expected Credit Loss (ECL) on trade receivables

The ECL allowance on trade receivables from market operators continues to be one of our key audit focus areas due to the level of subjectivity and judgements involved in estimating the key assumptions that impact the receivables. The Company had a gross trade receivable sum of ₦317.63 billion and the allowance for credit loss of ₦283.84 billion representing 89.36 percent of the gross trade receivable as at 31 December 2020.

Key ECL indicators such as the liquidity challenge currently faced by the Nigerian Electricity Supply Industry (NESI), the impact of government policies and regulations as well as the effect of other prevailing macroeconomic factors are areas with inherent significant management judgements and assumptions which our audit focused on.

#### Our audit procedures thereon

- i. We obtained an understanding of the methodology used by management in estimating the credit loss allowance on trade receivables.
- ii. We assessed the methodology used to ensure it is in line with the provision of IFRS 9. In addition, we tested the consistency of management application of this ECL approach on trade receivables with those of prior years.
- iii. We checked the accuracy of the ECL rate by ensuring all relevant data such as the inflation rates have been factored into the computation of the ECL rate applied
- iv. We reviewed the computation model used by management together with all relevant input and reperformed the computation of the loss allowance using the adjusted Historic Loss Rate (HLR).
- v. We reviewed the disclosures presented in the financial statements to ensure compliance with the provision of IFRS 9

#### 2. Loans to related parties

The loan advanced to related parties is another audit focus area due to the disclosure requirements associated with the nature of the transaction and our plan to assess the risks of material misstatement on the carrying amount.

Kaduna Electricity Distribution Plc. (KEDC) and Abuja Electricity Distribution Plc. (AEDC) were the beneficiaries of the loans. While KEDC failed to meet all instalments payments obligation on the loan as at 31 December 2020, AEDC was able to meet only one repayment obligation during the year. Also, the industry in which both borrower companies operate is currently experiencing a significant liquidity constraint which cast doubt on their ability to meet repayments obligations as and when due.

Management has appropriately made an ECL allowance of 85 percent and 60 percent on the current carrying amounts for KEDC and AEDC respectively in the current year financial statements.

#### Our audit procedures thereon

- i. We reviewed borrowers' financial records as well as other relevant documents and borrowers' industry related information to assess their ability to meet repayments obligation as and when due.
- ii. We reviewed the impairment assessment carried out on the loans advanced to both companies to ensure all relevant information required for proper assessment were taken into consideration.
- iii. We sent balance confirmation circularisation to the borrowers and validated their responses to the reported balances on the financial statements.
- iv. We assessed the company's credit loss classification for each of the borrower in line with IFRS 9 credit loss stages to enable us conclude whether or not they are fairly classified.

#### Other information

The Directors are responsible for the other information. The other information comprises the Report of the Directors, Statement of Directors' Responsibilities, Statement of Corporate Responsibility for the financial reports, value added statement and five-year financial summary. Other information does not include the financial statements and our audit report thereon. Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

Directors' responsibility for the financial statements

The Directors are responsible for overseeing the company's financial reporting process including the preparation and fair presentation of the financial statements in compliance with the Financial Reporting Council of Nigeria Act No. 6, 2011 and in accordance with International Financial Reporting Standards and in the manner required by the Companies and Allied Matters Act of Nigeria, (CAMA) 2020. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

In preparing the financial statements, the Directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Responsibilities of the Auditor for the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud
  or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that
  is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
  misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
  collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

# Responsibilities of the Auditor for the financial statements (Continued)

- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during the audit.

Report on Other Legal and Regulatory Matters

Compliance with the requirements of Schedule 5 of the Companies and Allied Matters Act (CAMA) 2020

We confirm that:

- (i) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of the audit;
- (ii) Proper books of account have been kept by the company, so far as appears from our examination of those books and adequate returns have been received from branches not visited;
- (iii) The Company's statements of financial position and statement of profit or loss and other comprehensive income are in agreement with the books of account.

- · Notes to the financial statements.
- · Other national disclosures

#### 2. Basis of preparation

#### 2.1 Statement of compliance

The Company's financial statements for the year ended 31 December 2020 and the accompanying comparative financial statement relate to the full year ended 31 December 2019 are presented in accordance with, and comply with, International Financial Reporting Standards (IFRS) and International Reporting Interpretations Committee (IFRIC) interpretations issued and effective for the periods presented.

#### 2.2 Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The functional currency and presentation currency of the Company is the Nigerian Naira (N). Except as indicated in these financial statements, financial information presented in Naira has been rounded to the nearest thousand.

#### 2.3 Going concern status

In preparation of financial statements, management makes an assessment of the Company's ability to continue as a going concern. Financial statements are prepared on a going concern basis unless management either intends to liquidate the Company or cease operations, or has no realistic alternative but to do so. This assessment is usually expected to span at least a period of 12 months after the end of the reporting period.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

#### 3. Basis of measurement (continued)

The financial statements have been prepared under the historical cost basis except for the following:

- Investment properties measured at fair value.
- Financial assets measured at:
  - amortized cost.
  - fair value through other comprehensive income (FVTOCI).
- fair value through profit or loss (FVTPL)
- Financial liabilities measured at:
  - amortized cost.
  - fair value through profit or loss (FVTPL)
- Defined benefit obligations measure at the discounted future value of all expected future obligations plus past service costs and actuarial loss less actuarial gains.
- Inventory measured at lower of cost and net realisable value.

#### 4. Application of new and revised International Financial Reporting Standards (IFRSs)

#### .1 New accounting standards, amendments and interpretations issued but not yet effective

The following revisions to accounting standards and pronouncements were issued but are not yet effective. Where IFRSs and IFRIC Interpretations listed below permits early adoption, the company has not applied any in the preparation of these financial statements.

The full impact of these IFRSs and IFRIC Interpretations is currently being assessed by the company, but none of these pronouncements are expected to result in any material adjustments to the financial

| Standard  | Pronouncement/details of amendment   | Issued Dates               | Effective<br>Date |
|---|--|----------------------------|-------------------|
| Classification of<br>Liabilities as Current<br>or Non-Current<br>(Amendments to IAS<br>1) | The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or noncurrent.  | ,                          | 1-Jan-23          |
| IAS 1 Presentation of<br>Financial Statements   | Amended by Definition of Material (Amendments to IAS 1 and IAS 8)  | January 2020               | 1-Jan-22          |
| Reference to the<br>Conceptual<br>Framework<br>(Amendments to IFRS<br>3)                  | The amendments update an outdated reference to the Conceptual Framework in IFRS 3 without significantly changing the requirements in the standard.   | - Contract - International | 1-Jan-22          |
| IFRS 17 Insurance<br>Contracts  | Allows insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts.  |                            | 1-Jan-23          |
|   | IFRS 17 supersedes IFRS 4 <i>Insurance Contracts</i> as of 1 January 2021.   |                            |                   |
| Property, Plant and Equipment — Proceeds before Intended Use (Amendments to IAS 16)       | The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the cost of producing those items, in profit or loss. |                            | 1-Jan-22          |

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

# 4. Application of new and revised International Financial Reporting Standards (IFRSs) (Continued)

| .1 | Accounting standard Standard  | ds and interpretations issued but not yet effective (continued) Pronouncement/details of amendment   | Issued | Effective |
|----|---|--|--------|-----------|
|    | Contract  | It pecifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).              |        | 1-Jan-22  |
|    | Interest Rate Benchmark Reform — Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16) | Introduces a practical expedient for modifications required by the reform, clarify that hedge accounting is not discontinued solely because of the IBOR reform, and introduce disclosures that allow users to understand the nature and extent of risks arising from the IBOR reform to which the entity is exposed to and how the entity manages those risks as well as the entity's progress in transitioning from IBORs to alternative benchmark rates, and how the entity is managing this transition. |        | 1-Jan-21  |

#### Annual Improvements to IFRS Standards 2018-2020 Cycle

#### Amendments to IFRS 1, First-time Adoption of IFRS

For Subsidiary as a first-time adopter. The amendment permits a subsidiary that applies paragraph D16(a) of IFRS 1 to measure cumulative translation differences using the amounts reported by its parent, based on the parent's date of transition to IFRSs. Effective date is for annual periods begining 1 January 2022. Early application is permitted.

### Amendments to IFRS 9, Financial Instruments

Fees in the '10 per cent' test for derecognition of financial liabilities. The amendment clarifies which fees an entity includes when it applies the '10 per cent' test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognise a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf. Effective date is for annual periods begining 1 January 2022. Early application is permitted.

#### Amendments to IFRS 16, Leases

Lease incentives. The amendment to Illustrative Example 13 accompanying IFRS 16 removes from the example the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives are illustrated in that example. The amendment is only regards an illustrative example, so no effective date is stated.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

# 4. Application of new and revised International Financial Reporting Standards (IFRSs) (Cont'd)

# .2 New and revised IFRSs/IFRICs affecting current year financial statements

In the current year, the Company has applied a number of new and revised IFRSs issued by the International Accounting Standards Board (IASB) that are mandatorily effective for an accounting period that begins on or after 1 January 2019.

| Pronouncement/a mendments  | Nature of change  | Required to be<br>implemented for<br>periods beginning<br>on or after |
|--|---|---|
| Definition of<br>Material<br>(Amendments to<br>IAS 1 and IAS 8)                      | It provides a broader spectrum to the Definition of Materiality (Amendments to IAS 1 and IAS 8) clarify the definition of 'material' and align the definition used in the Conceptual Framework and the standards.   | beginning on or after   |
| Interest Rate<br>Benchmark Reform<br>(Amendments to<br>IFRS 9, IAS 39 and<br>IFRS 7) | This is to clarify that entities would continue to apply certain hedge accounting requirements assuming that the interest rate benchmark on which the hedged cash flows and cash flows from the hedging instrument are based will not be altered as a result of interest rate benchmark reform. | beginning on or after<br>1 January 2020                               |
| Covid-19-Related<br>Rent Concessions<br>(Amendment to<br>IFRS 16)                    | The amendment provides lessees with an exemption from assessing whether a COVID-19-related rent concession is a lease modification.   | Annual reporting periods beginning on or after 1 June 2020            |

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

#### 5. Significant accounting policies

The significant accounting policies applied in the preparation of the financial statements are set out below:

#### 5.1 Foreign currency transactions

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at exchange rates of monetary assets and liabilities denominated in currencies other than the Company's functional currency are recognized in profit or loss within finance income/ expense. Monetary items denominated in foreign currency are translated using the closing rate as at the reporting date. Non-monetary items that are measured based on historical cost in a foreign currency are not translated.

#### 5.2 Financial assets

#### a) Recognition and initial Measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial asset and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivables without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fairvalue through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

#### b) Classification and subsequent measurement

On initial recognition, a financial asset is classified as measured at: amortised cost; Fairvalue through other comprehensive income (FVOCI)- some debt investment and equity investment and FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the changes in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and it is not designated as FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and -its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outsanding.

# A debt investment is measured at FVOCI if it meets both of the following conditions and it not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and the financial assets.
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the company may irrevocably elect to present subsequent changes in the investment's fairvalue in OCI. This election is made on an investment -by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirement to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

20

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

#### 5. Significant accounting policies

#### 5.2 Financial instruments (Continued)

A debt investment is measured at FVOCI if it meets both of the following conditions and it not designated as at FVTPL: (Continued)

#### Business model assessment:- Applicable from 1 January 2018

The Company makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- 1) The stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual return revenue, maintaining a particular return rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- 2) How the performance of the portfolio is evaluated and reported to management;
- 3) The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account.

Assessment of whether contractual cash flows are solely payments of principal and return on principal amount outstanding Applicable from 1 January 2018

As a second step of its classification process the Company assesses the contractual terms of financial to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortization of the premium/discount). 'Return' includes consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

#### 5.2.2 Financial liabilities

- a) Classification
  - Financial liabilities are classified as financial liabilities at amortised cost. The Company has no financial liabilities in any other category. Management determines the classification of financial liabilities at initial recognition.
- b) Financial liabilities at amortized costs
  - These include trade payables, other payables and borrowings. Trade payables are classified as current liabilities due to their short term nature while borrowings are spilt into current and non current liabilities. Borrowings included in non-current liabilities are those with maturities greater than 12 months after the reporting date.
- c) Recognition and measurement
  - Financial liabilities are recognized initially at fair value, net of any transaction costs. Subsequently, they are measured at amortised cost using the effective interest method.

#### 5.2.3 Derecognition

Financial assets are derecognised when the contractual rights to receive the cash flows from these assets have ceased to exist or the assets have been transferred and substantially all the risks and rewards of ownership of the assets are also transferred (that is, if substantially all the risks and rewards have not been transferred, the Company tests control to ensure that continuing involvement on the basis of any retained powers of control does not prevent derecognition).

Financial liabilities are derecognised when they have been redeemed or otherwise extinguished.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

- Significant accounting policies
- 5.2 Financial instruments (Continued)

#### 5.2.4 Offsetting Financial Instruments

Financial Instruments and liabilities are offset, and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and setle the liability simultaneously.

The legally enforceable right must not be contigent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

#### 5.2.5 Impairment of Financial Asets

The Company assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or Company of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a Company of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the profit or loss statement.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the profit or loss.

#### 5.3 IFRS 15: Revenue

The Company adopted IFRS 15 Revenue from contracts with customers on its effective date of 1 January 2018. IFRS 15 replaces IAS 18 Revenue and establishes a five-step model to account for revenue arising from contracts with customers. It applies to all contracts with customers except leases, financial instruments and insurance contracts.

The standard establishes a more systematic approach for revenue measurement and recognition by introducing a five-step model governing revenue recognition. The five-step model requires the Company to:

- i. identify the contract with the customer,
- ii. identify each of the performance obligations included in the contract,
- iii. determine the amount of consideration in the contract,
- iv. allocate the consideration to each of the identified performance obligations and
- v. recognise revenue as each performance obligation is satisfied.

Revenue from a valid contract with a customer is recognised when the following conditions are met:

- The contract has been approved by the parties to the contract.
- The rights and obligations of the parties to the contract in relation to the goods and services to be transferred are identifiable.
- The payment terms for the goods and services to be transferred are identifiable.
- The contract has commercial substance.
- it is probable that the consideration to which the Company is entitled to in exchange for the goods or services will be collected.

#### Revenue from energy wheeled into national grid

Revenue represents the total tariff earned per kilowatt of energy wheeled into the national grid.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

#### 5. Significant accounting policies

#### 5.4 Employee Benefits

#### 5.4.1 Wages, salaries and annual leave

Wages, salaries, bonuses, other contributions, paid annual leave and sick leave are accrued in the period in which the associated services are rendered by employees of the Company.

#### 5.4.2 Defined Contribution Scheme

The Company operates a defined contribution retirement benefit scheme for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. In a defined contribution plan, the actuarial risk falls 'in substance' on the employee. The employee contributes 8% while the Company contributes 20% of the emoluments (basic, housing and transport allowance). The Company has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods

The assets of this scheme are held by pension fund administrators, which are funded by contributions from both the employee and the Company. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available. The Company operates only a defined contribution pension scheme.

#### 5.5 Cash and Cash Equivalents

Cash and cash equivalents as shown in the statement of financial position comprise cash in hand or bank, deposits held at call with banks and time deposits which are readily convertible to cash with a maturity of three months or less.

#### 5.6 Statement of cash flows

The statement of cash flows shows the changes in cash and cash equivalents arising during the period from operating activities, investing activities and financing activities.

The cash flows from operating activities are determined by using the indirect method. Net income is therefore adjusted by non-cash items, such as changes from receivables and liabilities. In addition, all income and expenses from cash transactions that are attributable to investing or financing activities are eliminated.

In the statement of cash flows, cash and cash equivalents includes cash in hand, deposit held at call with banks, other short term highly liquid investments with original maturities of three months or less. The cash flows from investing and financing activities are determined by using the direct method.

#### 5.7 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation. Cost includes: expenditure that are directly attributable to the acquisition of the fixed assets. Historical costs includes expenditure that is directly attributable to the acquisition of the item. When parts of an item of fixed assets have different useful life, they are accounted for as separate items of fixed assets. Costs relating to fixed assets under construction or in the process of installation are disclosed as capital work in progress. The cost attributable to each asset is transferred to the relevant category immediately the asset is available for use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably. All other repairs and maintenance costs are charged to profit or loss during the financial period in which they are incurred.

Construction work in progress is not depreciated. All such assets, once available for use are capitalised within the appropriate class of property, plant and equipment and subjected to the applicable depreciation rate in the year they are used.

2:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

#### 5. Significant accounting policies

### 5.7 Property, Plant and equipment (continued)

Land is not depreciated by the Company. Depreciation of other items of property, plant and equipment is calculated using the straight-line method to allocate their cost, less their residual values over their estimated useful lives, as follows:

|                                   | Useful life |
|-----------------------------------|-------------|
|                                   | Years       |
| Buildings                         | 60          |
| Transmission lines                | 40          |
| Plant and Machinery               | 60          |
| Motor Vehicles                    | 5           |
| Furniture, fittings and equipment | 10          |
| Communication equipment           | 10          |

Depreciation starts when assets are available for use. The assets' residual values and useful lives are reviewed annually, and adjusted if appropriate.

Property, plant and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of the estimated selling price in the ordinary course of business less costs to sell and value in use.

Gains and losses on disposal of property, plant and equipment are determined by reference to their carrying amounts and taken into account in determining operating profit. These gains or losses are recognised within "other income or loss" in profit or loss.

#### 5.8 Impairment of Non-financial Assets

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are carried at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

# 5.9 Current and Deferred Taxation

#### a) Current Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in arriving at profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the applicable tax laws enacted or substantively enacted at the reporting date in the country, Nigeria, where the Company generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

#### b) Deferred Tax

Deferred tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

#### 5. Significant accounting policies

#### 5.9 Current and Deferred Taxation (continued)

Deferred tax assets and liabilities are offset when there is a legal enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balance on a net basis.

#### 5.10 Inventories

Inventories are stated at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less any applicable selling expenses.

The cost of finished goods and work in progress is determined using the weighted average method and comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity), incurred in bringing inventory to its present location and condition but excludes borrowing costs.

Allowance is made for excessive, obsolete and slow moving items. Write-downs to net realizable value and inventory losses are expensed in the period in which the write-downs or losses occur within administrative and overhead expenses.

#### 5.11 Borrowings

Borrowings are recognized initially at fair value, as the proceeds received, net of any transaction cost incurred. Borrowings are subsequently recorded at amortized cost. Finance charges, including premiums payable on settlement or redemption and direct issue costs, are accounted in profit or loss using the effective interest method and are added to the carrying amount of the instrument to the extent they are not settled in the period in which they arise.

#### 5.12 Payables

Payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Other payables are classified as current liabilities if payment is within one year or less. Otherwise, they are classified as non-current liabilities.

Payables are recognised initially at fair value and re-measured annually where they are denominated in foreign currencies.

#### 5.13 Share Capital

The Company has only one class of shares; ordinary shares. Ordinary shares are classified as equity.

#### 5.14 Capital Contribution

Capital contributions relate to contributions from the owners of the Company, in this case, the Federal Government of Nigeria. In their capacity as owners of the entity, these inflows are distinguished from transfers that arise from trading activities in the normal course of business. These capital contributions are non-reciprocal in nature (i.e. without a contractual obligation to repay it) and have been accounted for as an equity transaction and presented in the statement of changes in equity as a transaction with owners in their capacity as owners. In addition, day-1 gains/losses on Federal Government of Nigeria loans are recognised as capital contribution from the Federal Government of Nigeria.

#### 5.15 Comparatives

Except when a standard or an interpretation permits or requires otherwise, all amounts are reported or disclosed with comparative information.

#### 5.16 Leases

#### 5.16.1 Company as lessee

The Company designates a contract a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company assesses whether a contract is or contains a lease at the inception of the contract. A contract is assessed to contain a lease if the following conditions are established:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

#### 5.16 Leases

#### 5.16.1 Company as lessee (Continued)

- · There is an identifiable asset in the contract.
- The customer has the right to control the use of the asset throughout the period of the lease in exchange for a consideration to the supplier.
- The customer has the right to obtain substantially all the economic benefits from the use of the asset throughout the period of use.
- The supplier does not have a substantive right to substitute the use of the asset throughout the period of
  use of the asset.

Where the Company is a lessee in the lease contract, the Company recognises a right of use asset and a lease liability at the inception of the contract. The right of use asset is measured using the cost model provided it.

- is not an investment property and the lessee fair values its investment properties.
- does not relate to a class of property, plant and equipment to which the lessee applies revaluation model, in which case all right-of-use assets relating to that class of property, plant and equipment can be revalued.

Under the cost model a right-of-use asset is measured at cost less accumulated depreciation and accumulated impairment. Where the lease is for a term of 12 months or less and containing no purchase options or the underlying asset has a low value such as personal computers or small items of office furniture, the Company accounts for lease payments as an expense on a straight-line basis over the term of the lease except another systematic basis is more reflective of the economic benefits obtainable from utilisation of the leased asset.

The right of use asset and the lease liability are initially measured at the present value of the lease payments payable over the lease term by discounting with the implicit rate of the lease. Where the implicit rate cannot be readily determined, the Company shall apply its incremental borrowing rate. The company has opted for partial restatement approach for any adjustment arising from the application of IFRS 16, Leases.

#### 5.16.2 Company as lessor

Where the Company is a lessor in the lease contract, it classifies the lease either as a finance or operating lease. The Company designates a lease a finance lease where it transfers substantially all risks associated with ownership of the asset to the lessee otherwise it is designated as an operating lease.

The Company recognizes assets held under a finance lease as a receivable at an amount equal to the net investment in the lease. The Company recognizes finance income over the lease term of a finance lease, based on a pattern reflecting a constant periodic rate of return on the net investment.

The Company recognizes operating lease payments as income on a straight-line basis or, if more representative of the pattern in which benefit from use of the underlying asset is diminished or another systematic basis.

#### 6. Critical accounting estimates, judgements and errors

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be wrong. Detailed information about each of these estimates and judgements is included together with information about the basis of calculation for each affected line item in the financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

| 7. | Revenue                             | 2020<br>₩'000 | 2019<br>₩'000  |

Recognised revenue relates to the value of energy wheeled and delivered by the company to various trading points within the Nigerian Electricity Supply Industry (NESI). Recognised revenue is arrived at after appropriate measurement of the delivered energy and reconciliation between the company and the Operators of Nigerian Electricity Market (ONEM) together with the application of the relevant Transmission Use of Service (TUoS) rates.

.1 This represents value of completed assets ready and available for use as at 31 December 2020.

.2 This represents various corrections and reclassifications relating to current year to ensure the carrying amounts of the assets are appropriate.

.3 This relates to identified items of assets under construction that have suffered impairments.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

#### 17. Right-of- use assets

#### .1 Leases as a lessee

The Company leases a few number of buildings which normally run for a period of 1 to 2 years, with an option to renew the leases after expiration. The option to extend the leases are exercisable only by the Company and not the lessors. The Company often exercise this right after it reassesses all relevant significant events or changes in circumstances within its control. Lease rental fees are renegotiated when necessary to reflect fair current market rental rates.

The following are the leased properties classified as right-of-use assets as presented in the statement of financial position.

<sup>.2</sup> The Company applied IFRS 16 using the modified retrospective approach. Under this method, the right-of-use assets are recognised on the basis of the lease liabilities. The comparative information presented for 2019 is not restated but presented as previously reported under IAS 17. The details of the new accounting policies are disclosed on note 5.16 to the financial statements above.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

| 18. | Loans to related parties           |   | ₩'000       | 2019<br>₩'000  |
|-----|------------------------------------|---|-------------|----------------|
|     | Loans and advances (See note 18.1) |   | 8,924,555   | 9,079,317      |
|     | Impairment provision               |   | (6,407,969) | (4,800,000.00) |
|     | Total loans to related parties     | 1 | 2,516,586   | 4,279,317      |

.1 This represents the sum of ₹5 Billion and ₹6.5 Billion advanced to Kaduna Electricity Distribution Plc and Abuja Electricity Distribution Plc respectively at a 10 percent rate of inconvenience fee.

Management's objective is to hold the assets for the purpose of collecting the contractual cash flow at the specified dates stated on the repayment amortisation schedule. The reported amount has been measured at amortised cost using the effective interest rate method. The below market loss has been reported in reserve.

The company's assessment shows the existence of a significant credit deterioration of the beneficiary companies of the loan. While one of the companies have defaulted in all repayment obligations during the year, the other met only one repayment obligation. Other adverse solvency ratios and industry related constraints amongst other factors were considered in determining the recognised amount of Expected Credit Loss on this financial asset.

|     | Balance at 31 December   | 283,845,137   | 254,931,247    |

On adoption of IFRS 9, the company has computed its impairment provision in line with the ECL model and has made disclosures in Note 38.1. the impairment on trade receivables was \$\frac{1}{2}283.845\$ billion as at 31 December 2020 (31 December 2019: \$\frac{1}{2}254.931\$ billion). The impairment recognised represents the difference between the carrying amount of these trade receivables and the present value of the expected proceeds. The company does not hold any collateral over these balances.

.1 This represents the impairment provision on receivable from other services provided by the company for which the recoveries remained doubtful as at 31 December 2020. The sum of \(\mathbb{\text{\t

- .1 This represents payments made in advance to various providers of goods and services, the consideration of which were yet to be received and/or enjoyed by the Company as at the reporting date.
- .2 Included in impairment is the amounts advanced to various contractors for which the performance obligation remained unfulfilled for a past period of at least 4 years. The recovery of the amount or the performance of the contractual obligation from the contractors remained doubful. Included also are the lagacy balances inherited from the defunct PHCN. Based on the impairment assessment, managment has classified the credit risk on this asset as "significant deterioration".
- .3 This represents the sum of N40.4 billion swept by the Debt Management Office (DMO) from the Company's eurobond loan Sinking Fund Accounts(SFA) maintained with the Central Bank of Nigeria as at 31 December 2020 (31 December 2019: N27.6 billion). The amount was reported to have been used for investment purpose in line with the Eurobond loan agreement, which grants DMO the authority to utilise the fund for investment purpose on behalf of TCN and make the fund available in the SFA for the loan repayment on due date. The certificate of investment and other details required for appropriate disclosure and to ascertain if the company is a party to the contract were yet to be received from DMO as at the reporting date.
- .4 Included in impairment on unutilised Letters of Credit (LC) is ₹1.589 billion (2019: ₹5.786 billion), while additional sum of ₹1.494 billion impairment provision was recognised in current year, the sum ₹5.690 billion was discovered to be prior years misstatement and now derecognised. The carrying amount derecognised in current year was contained in the loss allowance of ₹5.786 billion recognised in year 2019.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

|     | Corporate tax Tartiary Education Tax (TET) Nigerian Police Trust Fund Levy (NPTF) | 6,754,376<br>1,351,010<br>1,898 | 3,386,118<br>677,291<br>250 |
|     | Deferred taxation   | 8,107,284                       | 4,063,659                   |
|     | Deferred tax expense recognised in the current year                               | 10,989,836                      | 2,696,765                   |
|     | Total current income tax expense  | 19,097,120                      | 6,760,424                   |

The Company was assessed based on the provisions of both the Companies Income Tax Act amended to date and the Finance Act 2020 that mandates a minimum tax assessment, where a tax payer's tax liability computed on assessable profit is less than the minimum tax liability. This is not the case in this regard, hence no minimum tax liability is applicable.

The Nigeria Police Trust Fund (Establishment) Act, 2019 imposes a levy of 0.005% of the net profit of companies operating in Nigeria.

The income tax expense for the year can be reconciled to the accounting profit as follows:

| Profit before taxation                                    | %    | 2020<br>₩'000<br>37,959,893 | % =  | 2019<br>N'000<br>4,995,024 |

.1 Included in borrowings are;

<sup>.1.1</sup> A 40 year World bank loan - Nigeria Electricity and Gas Improvement Project USD300 million. Total draw down was USD265.67 million and first drawn down in year 2014. Although loan is at zero percent interest rate, a service charge payment of 0.75% per annum on the total amount drawn on the credit line is required.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

### 26. Borrowings (Continued)

- .1.2 A 9.5 year Eurobond term loan obtained by Federal Government of Nigeria on behalf of TCN. The loan amount is USD135.5 million at 6.625 interest rate. Loan was received in 2014.
- 1.3 A 33 year World bank loan Nigeria Electricity Transmission Project (NETAP) USD486 million. Total draw down as at 31 December 2020 was USD28.29 million and first drawn down in year 2019. Although loan is at zero percent interest rate, a front end fee of 0.75% per annum on the total amount drawn on the credit line is required. The loan was first drawn in 2019. It was initially recognised in Capital contribution but now reclassified to borrowing in current year when the agreement that introduced the Company as a party to the contract was executed.

The loans are US Dollars denominated and has been valued at amortized cost, using effective interest rates. The below - market rate of interest gain has been recognised by the company in reserve as capital contribution.

The total foreign loan obligation as at 31 December 2020 was 429.46 USD million (2019 USD401.174 million).

### 27. Retirement benefit obligations

#### .1 Defined contribution plan - Pension

The employees of the Company are members of a state arranged pension scheme (Pension Reform Act, 2014) which is managed by several licensed Pension Fund Administrators (PFA). The Company is required to contribute a specified percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Company with respect to the defined contribution plan is to make the specified contributions and remit to respective PFA nominated by each employee.

|     |                             | 2020       | 2019       |

|     |                             | ₩'000      | ₩'000      |
| 28. | Trade and other payables    |            |            |
|     | Trade payables              | 13,213,410 | 14,918,190 |
|     | Accruals and other payables | 1,849,795  | 1,367,802  |
|     |                             | 15,063,205 | 16,285,992 |

Items of trade payables represent obligations to contractors for supplies and services delivered to the company during the year, for which payments were yet to be made as at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

#### 29. Contingent liabilities

There were no contingent liabilities as at 31st December 2020 (2019: Nil).

#### 30. Capital commitment

There were no capital commitments as at 31st December 2020 (2019: Nil).

### 31. Events after the reporting period

There were no events after the reporting date that could have had a material effect on the financial statements of the Company that have not been adequately provided for or disclosed in the financial statements.

#### 32. Approval of financial statements

The financial statements were approved by the board of directors and authorised for issue on 29 December 2021

#### 33. Capital management

The Company manages its capital to ensure that it will continue as a going concern while maximizing the return to stakeholders through the optimization of the debt and equity balance. The Company's overall strategy remained unchanged.

The capital structure of the Company consists of equity, comprising issued ordinary share capital, capital contribution by owners, revaluation reserve and retained earnings as disclosed on the statements of changes in equity and in the relevant notes to the financial statements.

The Company is not subject to any externally imposed capital requirements.

The management of the Company réviews the capital structure on a frequent basis to ensure that debt to equity balance is within acceptable limit. The overall objective of capital management is to reduce debt to equity ratio to the barest minimum.

The Company debt to equity ratio at the end of the reporting period:

|  | 2019   | 2018   |
|--|--|--|
|  | ₩'000  | ₩'000  |

#### 35. Risk management

The Company has exposure to the following risks from its use of financial instruments:

- Market
- · Liquidity risk
- Credit

This note presents information about the Company's exposure to the above risks, the Company's objectives, policies and procedures for measuring and managing risk, and the Company's management of capital.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework, including implementation and monitoring of these policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits, controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

#### .1 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

#### 35. Risk management (Continued)

#### .1 Market risk (Continued)

#### .1.1 Currency risk

The Company undertakes transactions denominated in foreign currencies and is exposed to interest rate risk because it borrows funds at fixed and floating interest rates; consequently, exposures to exchange rate fluctuations arise.

The Company is exposed to currency risk, the risk that the fair value or future cash flows of a financial instrument will fluctuate due to the changes in the foreign exchange rates.

The Company monitors the movement in the currency rates on an ongoing daily basis. The company ensures that the movements in the exchange rates do not adversely affect the company's income or value of its holdings of financial instruments.

#### .1.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to the changes in market interest rates. As at the reporting date, the company had no interest bearing financial instruments that are subject to fluctuations.

#### .1.3 Sensitivity analysis

An increase of 300 basis points in interest rates at the reporting date would have increased the profit by the amounts shown below. This analysis assumes that the other variables remain constant.

| Effect   | 2020<br>₩'000 | 2019<br>₩'000 |
|----------|---------------|---------------|
| Interest | 21,665        | 45,867        |

A decrease of 300 basis points in interest rates at the reporting date would have the equal opposite effect, on the basis that all other variables remain constant.

#### .2 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company manages its cash position and future outflows on an ongoing, daily basis and ensures that it has sufficient cash on demand to meet expected operational expenses and liabilities as they fall due. The Company also manage liquidity risk by maintaining adequate reserves, banking facilities and accepting capital contributions from related parties, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

#### .3 Credit risk

Credit risk is the risk of financial loss to the company if a customer fails to meet its contractual obligations that arises principally from the Company's receivables from customers.

The Company's principal exposure to credit risk is in its trade and other receivables. Trade receivables principally represent amounts owing to the Company by their customers and credit risk is managed at the management level. Credit evaluations are performed on all customers requiring credit over a certain amount. The company has no significant concentration of credit risk, with exposure spread over a large number of parties.

#### .3.1 Exposure to credit risk

The carrying value of the Company's financial assets represents its maximum exposure to credit risk. The maximum exposure to credit risk at the reporting date was:

|   | 2020<br>N'000 | 2019<br>N'000 |
|---|---------------|---------------|
| Trade receivables   | 317,630,169   | 276,707,584   |
| Other receivables   | 12,304,061    | 10,739,421    |
| Loans to related parties  | 2,516,586     | 4,279,317     |
| Bank deposits   | 169,315,962   | 110,661,468   |
|   | 501,766,778   | 402,387,791   |
| The maximum exposure to credit risk for trade receivables at the reporting date by type of receivables was: |               | 1             |
| Receivable from Operators of Nigerian Electricity Market  | 283,845,137   | 254,931,247   |
| Receivables from other customers  | 10,734,366    | 10,739,421    |
| Recovery on loans to related parties  | 6,407,969     | 4,800,000     |
|   | 300,987,472   | 270,470,668   |

### 36. Fair value of financial instruments

The Directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the financial statements approximate their fair values:

#### 37. Segment reporting

Nigeria is the Company's primary geographical segment as all the Company's income is derived in Nigeria. In addition, all of the Company's income comprise income from transmission of electricity from the electricity Generation Companies to the various electricity trading points in the Nigerian Electricity Supply Industry (NESI). This is in accordance with the provision of Electric Power Sector Reform Act 2005 and its licensing agreement with Nigerian Electricity Regulatory Commission (NERC). The company presents no further business or geographical segment information.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

# 38. Disclosures on expected credit loss

# .1 Expected credit loss assessment.

The Directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the financial statements approximate their fair values:

The company uses an allowance matrix to measure the expected credit loss (ECLs) of Trade receivables. Loss rate are based on actual credit loss experience over the past three years. The table below provides information about the exposure to credit risk and ECLs for Trade receivables 1 January and 31 December.

| 31 December 2020                  | Gross carrying   | Weighted<br>Average loss |                       |
|-----------------------------------|------------------|--------------------------|-----------------------|

| Current year loss allowance on tr | rade receivables |                          | 28,913,890            |

#### 39 Earnings Per Share (EPS)

Basic earnings per share is calculated by dividing the net profit attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the year.

The Company does not have ordinary shares with convertible options and therefore, there is no dilutive impact on the profit.

The basic EPS of the company as at 31 December are calculated as follows:

|  | 2020<br>₩'000 | 2019<br>₩'000 |
|--|---------------|---------------|
| Profit from continuing operations attributable to owners           | 18,862,773    | (1,765,400)   |
| Weighted average number of ordinary shares in issue (in thousands) | 10,000        | 10,000        |
| Basic EPS expressed in Naira                                       | 1,886         | (177)         |

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

# 40. Assessment on the Impact of COVID-19

There was a global outbreak of the Corona virus disease (COVID-19) during the year which was declared a pandemic by the World Health Organisation (WHO). As a result, the country experienced monumental disruptions to social and economic activities, businesses were forced to shut down and the movement of persons, goods and services were largely restricted in a bid to contain the spread of this disease.

The company provides esential services, hence, it was not significantly affected by the restrictive measures imposed by the Nigerian government. However, the company responded by ensuring the safety of all personnel and other parties with whom the company had dealings during the period. The company ensured that while staff worked remotely where practicable, energy wheeling services and other ancillary services deliveries continued without significant distruptions. Although these measures mitigated the severe impact of COVID-19 on the Company, it experienced the following events which resulted in some revenue losses and distruptions in the Company's operations;

- (a) the strict lockdown and restrictions of personnel movement created some disruption in the demand and supply chains as well as affecting the timely completion of some ongoing power projects across the country.
- (b) the dwindled household income resulting from the limited economic activities increased collection losses from defaulting customers affected the Discos and International customers, thereby impacting the Company's cash inflow adversely.

Based on this assessment, nothing has come to the attention of the management to indicate that the Company will not continue to operate into the foreseeable future. The assessment also included a line- by- line impact of COVID-19 on the amount presented on the statement of financial position and concluded that no further adjustment will be required in the financial statements.

#### NOTES

Basic earnings per share are calculated based on the profit after taxation and the number of issued and fully paid ordinary shares at the end of each financial year.

Net assets per share are based on the net assets and the number of ordinary shares in issue and fully paid at the end of each financial year.
